

Dedicated to People Flow™

KONE elevators for commercial buildings

Your trusted elevator partner for residential buildings

With over 100 years of experience in the elevator and escalator business, KONE is your trusted partner dedicated to ensuring smooth People Flow® in your building. We revolutionized the industry in 1996 with the world's first machine room-less elevator – the KONE MonoSpace® – and the energy-efficient KONE EcoDisc® hoisting machine. Our proven track record, including half a million KONE EcoDisc installations worldwide, speaks for itself.

We have listened to our customers and carefully analyzed each and every part of our industry-leading elevator solution, and renewed it from top to bottom. Everything we did best, we've made even better.

3 REASONS TO CHOOSE KONE

1 Excellent eco-efficiency that cuts the carbon footprint of your building

Constant improvement of elevator energy efficiency with the KONE EcoDisc, centralized hoisting, and more advanced standby solutions.

A-class energy classification

2 Smooth ride comfort for the best possible passenger experience

Quality guaranteed through ride-comfort testing of all elevators before handover – a service unique to KONE.

Quiet and smooth operation, and accurate leveling enabled by:

- the renewed KONE EcoDisc hoisting machine, brakes, and centralized hoisting
- an improved car structure and sound-isolated guide shoes

3 Award-winning design that helps your building stand out

Easy selection of car interiors from a collection of functional and visually appealing designs created by KONE's award-winning design professionals.

The industry's most flexible and versatile offering, with over 100 materials and accessories, offering millions of possible combinations.

The most innovative materials and lighting solutions.

A STRONG TRACK RECORD

- 9 out of 10 KONE customers recommend us as a partner
- More than 100 years of experience in the elevator industry
- Over 800,000 KONE EcoDisc installations worldwide
- Over one million elevators and escalators in service
- 47,000 dedicated experts worldwide

Excellent eco-efficiency

THAT CUTS YOUR BUILDING'S CARBON FOOTPRINT

* The calculation is based on an elevator speed of 1 m/s, a load of 1600 kg, 200,000 starts/year, a travel height of 16 m and 5 floors

At KONE we have always been renowned for our revolutionary eco-efficient technology.

- Our reference elevators were the first in the industry to receive an A-class energy rating according to the VDI 4707 guideline.
- Installing an eco-efficient KONE elevator solution can also help in achieving green building accreditations such as LEED or BREEAM certification.

1 More efficient hoisting machinery
The completely renewed KONE EcoDisc® hoisting motor and highly efficient drive system delivers even better energy efficiency, helping to reduce both operating costs and your building's carbon footprint.

2 Eco-efficient regenerative drive
Our latest regenerative drive recycles energy for immediate reuse within the building and cuts consumption by up to 35%*.

3 Long-lasting LED lighting
As well as being up to 80%* more efficient than halogen lighting, LED lighting also lasts up to 10 times longer*.

4 More advanced standby solutions
Upgraded standby solutions power down the equipment when it is not in use, providing substantial energy savings.

SAVE ENERGY, SAVE SPACE

As well as offering world-class energy efficiency, because the renewed KONE MonoSpace is now even more compact it also helps you save valuable space.

- The highly compact elevator equipment – including the KONE EcoDisc hoisting machine and other mechanical structures – now requires even less height and width in the shaft.
- This frees up valuable floor space or allows for a more spacious, higher-capacity car.
- When replacing an existing elevator, the new KONE MonoSpace eliminates the need for a machine room and maximizes elevator capacity within the existing shaft dimensions.

U.S. based business magazine Forbes has ranked KONE several times as one of the most innovative companies in the world. KONE is also the only elevator and escalator company that has made it to the top 50.

Enhanced user experience, performance and security

KONE PEOPLE FLOW INTELLIGENCE

KONE DESTINATION – AN EFFORTLESS ELEVATOR EXPERIENCE

1 Select your destination floor

at the Destination Operating Panel (DOP). The display will tell you which elevator has been assigned to you and where it is located.

2 Move to your elevator

All elevators are clearly marked with identifiers above their doors.

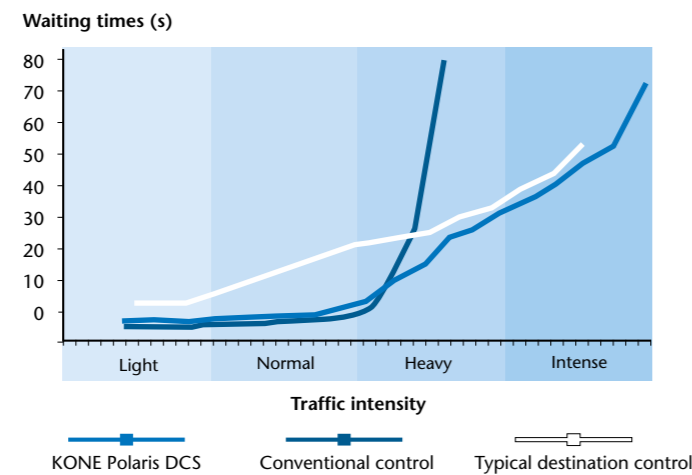

3 Enjoy the journey

Once in the car, the next-stops indicator displays the destination stops the car will make. The position indicator informs you when you have arrived at your destination floor.

Unlike conventional elevator control systems, which only register the desired travel direction, the KONE Destination Control System (DCS) incorporates information about desired destination floors and the number of waiting passengers. This information helps to increase elevator handling capacity, reduce journey times, minimize intermediate stops, as well as enhance accessibility and passenger comfort.

With the KONE RemoteCall™ application, passengers can call an elevator from anywhere in the building using their mobile device.

Our stylish touchscreen destination operating panels are easy to use and enhance the look of your lobby.

KONE ACCESS – IMPROVED PEOPLE FLOW AND SECURITY

KONE access solutions offer a fully scalable system for managing tenant and visitor access throughout a building. They combine the latest software and hardware for managing access profiles and controlling door, turnstile, and elevator access. The system can be integrated with KONE's destination control system.

In addition to providing its own access solution, KONE can integrate any third-party access solution with its elevator system, offering you complete freedom of choice.

By integrating KONE turnstile solutions with our destination and access solutions you benefit from consistent design, flexible personalization features, and enhanced comfort for visitors and tenants

KONE INFORMATION – EFFECTIVE COMMUNICATION AND GUIDANCE

KONE information solutions are a convenient way to share multimedia and web-based content, as well as safety and building-related information, in elevator cars and elsewhere in the building.

KONE MONITORING – EASY EQUIPMENT MANAGEMENT AND CONFIGURATION

KONE monitoring solutions enable the real-time inspection of elevator and escalator operation across multiple locations via a single interface. As well as providing an overview of equipment status and performance, they enable remote configuration and can be easily integrated with existing facility management systems.

Smooth ride comfort

FOR THE BEST POSSIBLE PASSENGER EXPERIENCE

Every aspect of the upgraded KONE MonoSpace® is designed to add real value to your building and maximize comfort, safety, and convenience for passengers. The renewed KONE EcoDisc® hoisting machine is complemented by a wide range of other upgrades that are designed to deliver industry-leading ride comfort year after year.

1 Renewed machinery and brakes

- The new, highly reliable motor control system further improves ride comfort, with smooth acceleration and deceleration, and highly accurate car leveling.
- The renewed braking system ensures a comfortable, safe, quiet ride, while also minimizing noise transfer to the surrounding areas.
- The new brake test functionality automatically checks brake condition daily. This helps to further improve safety and reliability.

2 Redesigned hoisting system for minimized vibration and noise

- Centralized, low-friction hoisting cuts noise and vibration, improving comfort for passengers and minimizing disturbance to the surrounding areas.

3 Improved car structure for a more comfortable ride

- The rigid structure and noise isolation of the renewed elevator car ensure a smooth and comfortable ride.
- New isolated guide shoes, constructed using low-noise sliding material, further help to reduce noise.

ALL ELEVATORS TESTED FOR RIDE COMFORT – A SERVICE UNIQUE TO KONE

- KONE provides a comprehensive ride comfort testing service as standard for all its elevator installations.
- Your elevator will not be handed over for use before it passes this test, which measures noise and vibration levels inside the car.
- This thorough quality and reliability testing prior to handover further reduces the need for unplanned maintenance callouts.

Award-winning design

THAT HELPS YOUR BUILDING STAND OUT

WHAT SETS KONE DESIGN APART

1 Easy selection of car interiors

A collection of 52 functional and visually appealing designs created by KONE's award-winning design professionals.

2 The most flexible and versatile offering

100 different materials and accessories can be combined freely and used in all elevator products, for both new commercial buildings and modernization projects.

3 The most innovative materials

The combination of unique textured, patterned, and 3D-effect wall materials with novel lighting solutions creates a stunning visual effect.

4 Award-winning design

KONE's elevator and signalization design concepts have received both red dot and Good Design awards.

KONE DESIGN COLLECTION

Whether your building is a place where people work, shop, or spend the night, the elevator you choose should complement the look and feel of the surrounding environment, create a lasting impression on passengers, and make your building attractive to visitors and potential tenants. In commercial buildings, where high passenger volumes are commonplace, your elevators also need to be functional – they should be accessible for all, well lit, user-friendly, easy to clean, and resistant to wear and tear.

The new KONE Design Collection – created by our award-winning design team – offers you a versatile set of contemporary, themed interiors to choose from. You can also create your own unique look and feel by mixing and matching our wide range of materials and accessories.

For more design inspiration take a look at the complete KONE Design Collection and use the KONE Car Designer tool to create your own design: www.kone.XX/XXXX

ACCESSORIES DESIGNED TO IMPROVE USER EXPERIENCE IN COMMERCIAL ENVIRONMENTS

Our wide range of accessories is designed to give passengers a great elevator experience with every trip. As well as adding the finishing touches to your elevator's interior, they make using the elevator even easier and more convenient for passengers.

1. KONE Design signalization – our cutting-edge signalization options are available in a wide variety of colors and patterns, making it easy to reflect your overall elevator design.
2. Car operating panels can be customized with your choice of graphics and tenant directory information.
3. KONE InfoScreen makes it easy to communicate important building information to tenants and visitors.

A dedicated partner

SUPPORTING YOU EVERY STEP OF THE WAY

Choose a partner with over a century of experience in delivering pioneering elevator solutions. Get expert advice from professionals and enjoy the peace of mind that comes with comprehensive support. KONE is with you every step of the way – from planning and design through installation and maintenance to modernization – for the entire life cycle of your building.

1 Expert design and planning services

- Expert planning advice helps you specify the optimal elevator solution for your building requirements.
- Easy-to-use online design tools save you time and effort during the design process by allowing you to create CAD drawings, 3D BIM models, and custom car interiors.
- Energy consumption calculations for every individual elevator solution.

2 Efficient and safe installation

- Highly efficient scaffoldless installation methods and a simple building interface result in considerable cost savings for our customers and minimize disruption to other construction work.
- Strict quality criteria for each phase of installation - ensuring "first time right every time".
- Continuous training, site audits, installation safety passports, and proven methods ensure maximum site safety.
- Eco-efficient installation processes maximize waste recycling and minimize the use of solvents.

3 Quality assurance at handover and professional maintenance

- We are the only company to provide in-depth ride quality testing of each elevator before handover.
- Our elevators are known for their reliability, and have an average availability rate of 99%.
- Our global spares center stocks over 150,000 parts and offers 24-hour delivery for the most commonly requested parts.
- Preventive KONE Care® maintenance solutions – including a comprehensive online service-reporting system – make it easier to monitor and budget for elevators, escalators and doors maintenance.

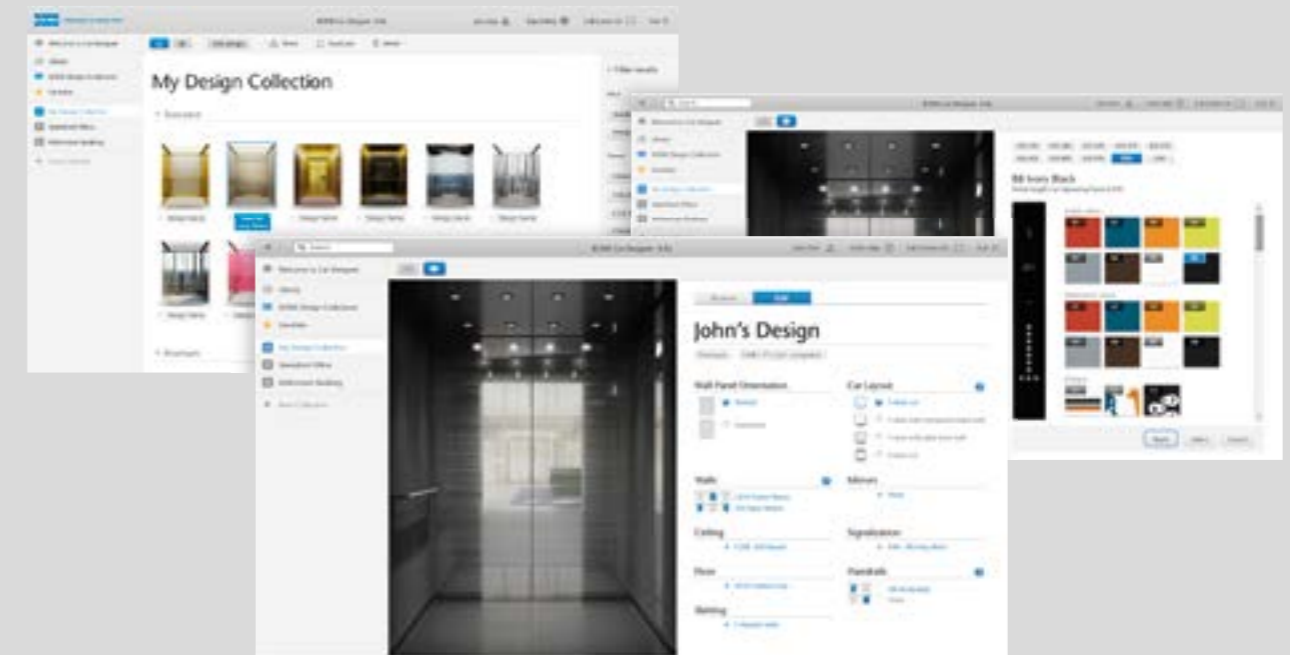

WORLD-CLASS DESIGN TOOLS

Take advantage of our easy-to-use tools for planning your elevators and designing a car that will fit your building's look and feel perfectly.

KONE Elevator Toolbox – now including BIM models

- With the KONE Elevator Toolbox you can create a detailed elevator specification online and create customized CAD drawings for preliminary planning.
- KONE Building Information Modeling (BIM) models make it easier and quicker for architects to prepare digital elevator designs. Included in the elevator toolbox, these models are compatible with most common project documentation systems and include the latest KONE elevator specifications. Once your elevator design is ready, you can send the specifications direct to a KONE sales representative ready for tendering or ordering.

www.kone.XX/XXXX

KONE Car Designer – now including new designs, materials, and accessories

- Create your own virtual elevator interior design online or together with a KONE sales representative with the KONE Car Designer.

- Choose a theme from the KONE Design Collection, or mix and match your choice of materials, lighting, and accessories to create a totally new look.
- Save your design as a printable PDF and send a link to a colleague or to a KONE sales representative.

No compromises on safety

When you choose KONE, you choose peace of mind. Safety is the starting point for every KONE solution, and all our solutions include the latest innovations in safety technology as standard.

Our elevator solutions include a wide range of features that are designed to both maximize safety for passengers and make it easy for you to inspect the condition of your equipment to ensure that it operates safely at all times.

- Daily **automatic brake testing**
- **Proven rope technology** that is easy to inspect
- A curtain of light to ensure **safe entry and exit**
- **Accurate landing** that eliminates risk of tripping
- A door opening button for **door control** when the elevator is stopped
- A 2-way communication system for **instant, 24/7 contact with KONE Customer Care Center** in case of emergency

KONE also demonstrates its strong commitment to safety by working closely with the people who rely on our products to provide a safe, comfortable experience in their daily lives. Our safety events and communication material give people the opportunity to familiarize themselves with how elevators operate and how to use an elevator safely.

KONE provides innovative and eco-efficient solutions for elevators, escalators, automatic building doors and the systems that integrate them with today's intelligent buildings.

We support our customers every step of the way; from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in helping our customers manage the smooth flow of people and goods throughout their buildings.

Our commitment to customers is present in all KONE solutions. This makes us a reliable partner throughout the life cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE MonoSpace[®], KONE EcoMod[™] and KONE UltraRope[™].

KONE employs on average 47,000 dedicated experts to serve you globally and locally.
